## Personal Emergency

I am seventy five years old and suffer from severe arthritis in my knees. One afternoon I tripped and fell down while walking in the neighborhood. I could not get up on my own and no one else was around. Fortunately I was carrying my cell phone with me. I pressed the 'ReachOut and Connect' service button. Within seconds I was talking to my three sons and my daughter and my daughter-in-law. On the call, we decided which one of my children was closest to me who could come and take me to the emergency room.

- John Southerland, Plano, Texas

## Health Emergency

I am a 65 year old widow. I live by myself. I also suffer from low blood sugar. One of my sons had me sign up with the 'ReachOut and Connect' service.

Now whenever, I feel in need of help, all I have to do is press a button on my cell phone and with in seconds I am in touch with my family members. One of my children then comes over and helps me out. The best part is that I feel safe even when I am out of my house or traveling as the service can be invoked from anywhere.

- Julie Anderson, Fort Meyers, Florida

# Benefits

- ◆ The 'ReachOut and Connect' service operates using your cell and landline phone, hence the service can be used from anywhere you are. No need to be tethered to within certain distance from an emergency phone as is the case with current systems.
- ◆ With 'ReachOut and Connect' service, you decide whom you want to be in touch with, when you need help. Help is one key press away.
- ◆ All of your emergency contact numbers are pre-programmed in our database. During an emergency, no need to fumble through any phone book to find numbers of your loved ones.
- ◆ The system automatically tries to reach your loved ones at their home, office, cell, numbers and via SMS and email, thereby increasing the probability of reaching your loved ones when you need them the most.
- ◆ ReachOut and Connect service is designed to allow you - the seniors to live independently, while giving peace of mind to your loved ones that you can reach them whenever you need them.

## REACHOUT AND CONNECT SERVICE

# How Does It Work ?

*When in need of help, simply press a speed dial key on your cell phone, a call will be placed to Reach Out and Connect Service.*

*Based on the incoming Caller-ID the Reach Out and Connect service will immediately call all of your group members (relatives, friends, police etc.)*

*As they pick up their phones they will be placed in a conference with you. Jointly people can then discuss and take any necessary action as required.*

### Break In

I am a 50 year old stay-at-home mom. One day I was at home alone while my husband was traveling. In the middle of

the night I heard the noise of glass breaking in the formal living room down stairs. I was scared.

Fortunately, I

had the 'ReachOut and Connect' service enabled on my cell phone. With the press of a button I triggered the service. It dialed our land line phone in the house and called my husband and two of my neighbors. Within seconds we were on a conference call. My neighbors decided to come to the house. The glass was indeed broken on the front door but there was no sign of any intrusion. It seemed that the commotion created by the use of the service drove the intruder away. The simple Reach out and Connect service saved a potential disaster.

- Martha Moreno, Lincoln, Nebraska

**Fast** – Quickly launch an emergency conference call by pressing a speed dial key on your cell phone handset or you can dial the Reach Out and Connect service number from any phone. Within seconds you will be talking to your pre-selected group of people. No need to remember any dial in number or any PINs etc for the audio conference service.

**Easy to use** – The system 'remembers' multiple phone numbers belonging to your group members. Once triggered the system will automatically dial your group member's on their multiple phone numbers (office, home, cell etc.). Once they pick up, they will automatically join you in an audio conference. No need to look up any phone numbers at the time of your emergency.

**Portable** - The service can be used from anywhere you have access to a telephone. No special equipment is required.

**Cost** - The service is priced very cost effectively compared to current solutions. Please see your XOP Networks' Service Representative for details.

**Billing** - The service charge can be billed to your credit card each month.
