# LDAP Data Sheet

The XOP Networks **LDAP** feature allows you to use your company's directory server.

- Maintain your XOP USN accounts from your corporate directory server.
- Use your company's existing users and groups in the XOP USN.

Key Features and Benefits

Feature	Benefit
Use your company's LDAP server for sign-on	Single location for your account names and passwords
Active Directory and OpenLDAP support	Use either of the most common corporate directories
Alternate Server Support	Survive an outage of a single directory server
Transport Layer Security (TLS)	Secure communications between the XOP server and the directory servers
Users and Groups Import	Use your corporate users and groups in the XOP server

Sample Use Cases

- **Single Sign-On**
  - *Use your company accounts to sign on to your XOP server.*
- **Conferencing**
  - *Use your company's existing LDAP groups in Conferencing Blast Dial calls.*
- **Mass Notification**
  - *Use your company's existing LDAP groups in Mass Notifications.*
